

Dear Sponsor,

We are thrilled to connect with you for the 2025-2026 season! This year we have new faces, ideas, and leadership. We are excited to tell you about the progress that we have made as well as some new updates.

This year our team will continue to race the MP7. After placing 2nd in the Formula Hybrid Competition in New Hampshire in May, we thought that our car didn't live up to its full potential. Even though we are competing with the same car this year, we are bringing plenty of fresh updates to our car.

Our low voltage and high voltage teams have been working hard over these past few weeks. They have recently acquired a new inverter and are working to connect it with our accumulator to make our emotor spin. Our integration team has been working on new electrical packaging in the back of our car. Our chassis team has started to research aero for the MP7 and future generations of cars. Our controls team has fixed issues with our clutch pedal and is beginning brake calculations for the MP7 and MP8. Our powertrain has verified that our engine is now running and continues to work on the powertrain wiring harness.

Mozee Motorsports would like to thank Heart Rock Coffee. We are collaborating with them to release Mozee Motorsports x Heart Rock Coffee merchandise to support our team. If you have any interest in buying merch to support our team, please visit [MOZEE Motorsports Fundraiser – Heart Rock Coffee](#).

Thank you once again for your donation! If you wish to see more updates about our team, follow us @mozeemotorsports on Instagram. If you have any questions, do not hesitate to contact me. Have a great Thanksgiving!

Kind Regards,

Riley Fink, MSOE SAE Formula Hybrid Sponsorship Coordinator
